Dear Sir:

RE: Health and Safety Prequalification Assessment:
Contractors Health & Safety (CHAS) Assessment Scheme

The assessment of your application has been completed; you will recall you were required to respond to a number of health and safety questions that were used to complete my assessment of your policy, organisation and arrangements for health and safety.

I am pleased to inform you that your application has been assessed as compliant and is registered in the CHAS scheme national database to reflect this. You should not take compliance as a right of entry to buyers approved or select list. CHAS buyers have the right to ask for additional, job specific, health and safety information on application, especially at invitation to tender or a second stage assessment.

CHAS do not issue a certificate of compliance as this could, in certain circumstances, lead to abuse of copyright and loss of revenue. You are welcome to tell buyers you have been assessed as compliant by CHAS, a member of SSIP (www.ssip.co.uk) but they will need to seek confirmation through the scheme manager.

If you feel you would like your company to become "Accredited" and hold a Certificate of Accreditation, with license for use of the CHAS logo on your livery and stationery or access to you database page, please go to www.chas.gov.uk/Accreditation.asp for more information and the one page accreditation application form. Please note accreditation requires a commitment to a full annual assessment. (*Accreditation is dealt with by CHAS, please deal with them should you wish to progress this.*)

One of the aims of the CHAS scheme is to reduce unnecessary duplication. In the event your company is asked to complete a CHAS or similar questionnaire by one of our buyers (they are listed on the CHAS web site) please contact them before completing that application to verify what is required.

Please visit the CHAS web site for any further information about the scheme.
